Reason for Allowance

The following is an examiner's statement of reasons for allowance: the applicant's amendment filed on 11-24-03 overcomes the technical deficiencies and the prior art of record.

The prior art reference of records fails to teach or fairly suggest a transistor circuit for implementing a differential switch comprising first, second and third transistor devices wherein the third transistor device is configured with predetermined parasitic characteristics that improve the effect of the transistor circuit when the control signal enables the first transistor device, the second transistor device and the third transistor device as called for in claim 6. Therefore, claims 6, 7 and 10 are presently allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
